

- 1) Install Laravel Project In Latest Version
- 2) Definition: Need to create simple CRUD operation using AJAX functionality, details as below

Create New Product

No Name

First Name
Enter Name

Last Name
Enter Name

Email
Enter Name

Mobile No.
Enter Name

Hobby
 Cricket Signing Reading

Gender
 Male Female

Country
Select Country

Details
Enter Details

Image
Choose file No file chosen

Save changes

- 3) All Field Should Be Required (Client side and Server Side Validation) And Email Should Be Unique
- 4) Add Two Tabs Like All User (Show All User List) And Second One is Deleted User (Deleted User List And We Also Restore Deleted User) Like As

Below

Create New Product

All User Delete User

No	First Name	Last Name	Email	Mobile No.	Details	Gender	Hobby	Country	Action
1	John	Doe	john@example.com	123456789	Some details	Male	Cricket, Reading	USA	Edit Delete

5) User Table Filter Functionality Like (Sorting, Searching And Pagination)

Note : Do Not Use Jquery Data Table or Any Laravel Packages For Filtering
